AJAX: make request without page loading:

Add remote= true in form or Anchor tag:

```
<%= form_for([@blog, @blog.comments.build], :remote => true) do |f| %  
  <%= f.label :body %><br>  
  <%= f.text_area :body %>  
  <%= f.submit %>  
<% end %>
```

```
<a href="url" data-remote=true> Hello </a>
```

```
<%= link_to "hello", root_url, :remote => true %>
```

In Controller: request will be come in AS JS format

def create

@blog = Blog.find(params[:blog_id])

@comment = @blog.comments.create(comment_params)

render 'blogs/create_comments'

end

In Views:

app/blogs/create_comments.js.erb

```
$('.comments-container').html('<%= escape_javascript( render "commen
```

```
$("#new_comment")[0].reset();
```

```
$("#new_comment").hide();
```
